

**Annual Meeting of the International Behavioural and Neural Genetics Society
Genes, Brain and Behavior 2026**

June 8-11, 2026

University of Pittsburgh
Pittsburgh, PA USA

About US: [The International Behavioural and Neural Genetics Society](#) was established in 1996 to promote growth of research in the field of neural behavioral genetics and behavioral neuroscience. The society has members worldwide that study the basis of a wide range of behaviors and brain disorders together with the underlying neuronal mechanisms using diverse species. For the past 27 years the [annual meeting](#) has attracted an average of 100 to 150 in-person participants drawn from multiple countries. Our Annual Meetings include a scientific program of plenary lectures, symposia, selected talks, award ceremonies and poster sessions. This year we are excited to connect with fellow behavioral geneticists and neuroscientists from the Mid-Atlantic and New England areas. Exhibitor and Sponsor opportunities are available, as described below. IBANGS is a registered U.S. 501(c)3 not-for-profit organization. Sponsor contributions support trainee travel and participation at the annual meeting.
